

People with Mobility Limitations in Wisconsin by County

Based on the 1990 US Census figures for civilian non-institutionalized persons 16 years and over. Persons were identified as having a mobility limitation if they had a health condition that had lasted for six or more months and which made it difficult to go outside the home alone. The term *health condition* referred to both physical and mental conditions. A temporary health problem, such as a broken bone that was expected to heal normally, was not considered a health condition.
